

I love my xm radio!!! I pay for it and it pays off!!!!NAB needs to deliver better quality radio instead of trying to bash xm radio!!!

It is the best Christmas present my husband has given...lots of uninterrupted, great music from way back when to great sports coverage and news and traffic coverage from different cities!!!

If NAB would stop trying to control what is on the radio now, maybe people would listen regular radio....but that goodness for xm radio.

It is the best!!!

A BIG fan of xm radio,
Josephine de Nobel
